2016/2324/P	Mr Peter Hardee	103 Arlington Road Camden London NW1 7ET	15/06/2016 17:21:02	OBJEMAIL	<p>The proposal for black glass / frames does not fit with the rest of the building, any doors / windows should be in keeping with the rest of the building.</p> <p>The exit to Arlington Road should be for fire escape purposes only, and not a main entrance, this would mirror its use in the previous building (The Crown and Goose pub).</p> <p>Any signage in Arlington Road should not be illuminated, this is a residential area, with no other illuminated signs. Any sign should be less intrusive, and indicate that the entrance is in Delancey Street.</p> <p>The applicants are in error, this building is in a conservation area, and as it is next to a listed building, any change should be sympathetic to its surroundings..</p>
