2016/1479/P	Killiane Limited	1 Cambridge Gate Regent's Park NW1 4JX	17/06/2016 06:25:13	OBJ	We are very much against this proposal as it would reduce the already limited parking options available for residents; the garden is completely unnecessary as the property is right next to Regent's Park so the disadvantages that would result for residents completely outweigh the benefit of a new garden; the road lanes will be reduced meaning even more traffic congestion thus more disturbances to residents in the area; the traffic will inevitably move into surrounding areas thus posing even further congestion in areas which already suffer from increased traffic.
