Dear Mr Fowler

Re: Planning Application for Central Somers Town 2015/2704/P

I work in Central Somers Town and wholly support the above planning application. The application will undoubtedly improve the quality of life and wellbeing for hundreds of children and families who are resident in Somers Town.

A wide range of improvements and benefits will result from the application, for residents and diverse community groups both now and long term, including the Community Play Project Plot 10, St Aloysius Nursery and Edith Neville Primary School.

The application covers the current and future demographic and offers state-of-the-art educational, recreational, sporting and communal facilities for increasing numbers of families, with children from the very earliest years through primary age to young adults.

It will upgrade and improve the usability and safety of the public open spaces without any loss of public open space.

Under the application, well designed new housing, with additional social housing for local residents, will pay for the scheme. Camden is additionally funding a higher proportion of social housing.

I urge all concerned to approve the Planning Application and allow the development to go ahead for the sake of the children of Central Somers Town and their future.

Yours sincerely

Mike Hutchinson
