Your comments on the planning application

The proposed height of 1-3 FP is 5 stories. This is higher than all but one of the existing buildings around it. They are 10 FS (4 stories), 2 FP (4 stories), 4, 6 & 8 FP (1storey) 7-18 Collard Place (4 stories) and Broomfield (7 stories). The planning application is therefore misleading to say that the proposed development is simply bringing the existing buildings up to the present height level. The proposed height of 1-3 FP should be no higher than 4 stories above ground. Even 4 stories will mean that my flat will be affected negatively from a light and sunlight viewpoint.

Planning Application Details

My flat is no more than 30 yards from the 1-3 FP site. I am naturally concerned about the level of noise and dust arising from the redevelopment. If the development is to go ahead, I would like construction work to be banned at weekends, and noise and dust provisions to be exemplary.
