2016/2801/P	Lizzie Spender	57 Greencroft Gardens London NW6 3LL	23/06/2016 13:45:45	OBJ	<p>Yes - I wish to be notified of any committee meetings. The Proposed extension would block light and air to my ground floor French windows, (eat in kitchen and sitting room) would destroy the present view, and would close in the patio turning it into a walled 'courtyard' (At present, there is just a small wall and open trellis with roses there which belongs to me)</p> <p>Proposed extension would result in solid building being 100% across the back of the building. This - is not 'allowed' in our area - and would set a precedent for the entire neighbourhood.</p> <p>Inaccuracy in architects report. These houses were all built as single family dwellings, not blocks of flats as stated . (NB the applicants were granted permission to build a basement in an area below the building that does not even belong to them - it belongs to the group of freeholders</p>
2016/2801/P	Patrick Nolan	Flat 1a 57 Greencroft Gardens NW6 3 LL	23/06/2016 21:09:58	OBJ	<p>I feel very strongly that you should reject permission to build an extension at 55 Greencroft Gardens. The extension would put us in great distress.</p> <p>I could not bare to have the lovely back patio blighted by a building which blocks the light we have gotten used to after more than 10 years of being a resident of flat 1a.</p> <p>None the less such an extension would spoil our view of the trees and back gardens we so much delight in.</p> <p>Please stop this building.</p>
