2015/6455/P	L V Bick	5 Lymington Road NW61HX	24/06/2016 15:49:23	COMMNT	Not at all happy that the developers are refusing to talk to, consult with or update the residents of Lymington Road on the progress or changes in their plans since the application was first submitted. Also I am unhappy with Camden for not acknowledging my personal letter objecting to the application or for advising me of any further developments in the planning procedure, which I specifically requested.
2015/6455/P	Phil Singletary	11 Agamemnon Road West Hampstead London NW6 1EB	26/06/2016 18:30:56	OBJ	This development is massive and unsightly. It will destroy the last vestige of West Hampstead's once peaceful streets. It will flood the area with more traffic, squeeze the already overstretched services and stations and blight the area generally. Well done Camden you have finally destroyed anything that was good in West Hampstead. Closing playgrounds, no social housing, huge blocks of luxury apartments. I never realised you were a Conservative Council until now. You treat us residents with utter contempt. This development will go through. This forum is a sop to us who thought that we had a democracy when it is clear the Developers will get to finally ruin my area. I have moved all my business and companies from West Hampstead as it getting a terrible place to live. This Development (another supermarket!!) adds pollution, congestion to roads and a miserable crowded series of ugly tower blocks to an already over populated space. There is no quality of life at present and this will put an end to any at all.
2015/6455/P	Sara Dibb	63 Solent Road London NW6 1TY	26/06/2016 13:48:36	OBJLETTE R	I have lived in and around this area for more than 50 years and am appalled by the flagrant disregard for community needs that are evident in this proposal. If it were to go ahead it would severely impact on the environment through it's untenable size, both in terms of building scale and the impact that the massive number of units would have on the community. Put simply there is no room for such a big development and no benefits to the community which it should be serving. Clearly the developers do not care as long as they maximise their profits but what about the councils duty to care for its citizens . Please only consider a proposal that is half this scale. Provide strong leadership governed by local needs rather than greed.
