

Dear Sirs,

Re:

Application Ref: 2015/2089/P

Associated Ref: 2015/2109/L - 2015/7079/P - 2015/7300/L

I would like to object to this application and would like all my previous objections to be taken into account as well.

Even with the West basement removed, the works for the East basement will still cause too much disruption to Air Studios, Lyndhurst and would still be a severe problem for the studios and a great loss of business.

I object to *any* basement work on this property as the disruption to neighbours would be too disruptive.

The importance of Air Studios to the UK is vital to both the film and recording industries that brings vast amounts of money into the UK - disruption to Air Studios will likely have a knock-on effect in other areas of the industry.

I strongly object to this application.

John

Subject: Re-consultation letter 2015/2089/P & 2015/7079/P 11 Rosslyn Hill

Date: 23 June 2016 16:53:18 BST

To: Undisclosed recipients: ;

Dear Sir/Madam,

Please find the attached 2nd re-consultation letter for references: 2015/2089/P & 2015/7079/P 11
Rosslyn Hill

Proposal: Excavation to create basement extension with sub-basement plant room to east of property, partial demolition of single storey self-contained studio above and like for like replacement as ancillary accommodation to main house, insertion of a covered lightwell to south of property.

REVISION - Second basement to west of property removed from proposal

Yours Sincerely

Hello - my name is Alison Lynch, 36 Ashwood Avenue, Hillingdon, Middlesex UB8 3LS

Regarding yet another revise planning application for 2015/2089/P & 2015/7079/P 11 Rosslyn Hill:

The revised plans do not remove the harm that this development will cause to the studios because the recording studio will not be able to function with the noise and vibration from the works and will therefore lose clients and may be forced to shut. This will be an astonishing outcome for allowing permission for a vanity swimming pool.

Regards

Alison Lynch

Re: Application Numbers 2015/7079/P & 2015/7300/L

Dear Mr. Tulloch,

This is in concern to the proposed planning application granted to the property adjacent to Air recording studios.

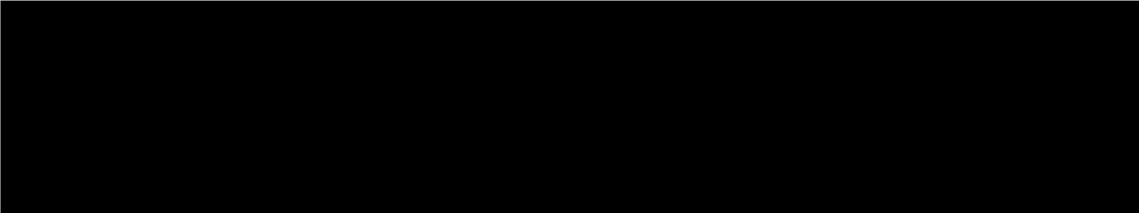

It is unreasonable to treat our original objection as not applying to the second application.

The first application should be rejected and our original objections stand for the first and second applications.

To just establish my credentials in this: I am an Oscar-winning film composer that regularly works at Air. Over the years, I have recorded projects like "Interstellar", "Gladiator", "Inception", "The Lion King", all three Batman films and most recently, "Woman in Gold", the "Terminator" movies and "Kung Fu Panda 3". More than a hundred movies in total.

I started my professional career at Air in its old location on Oxford circus over 35 years ago, and we have been loyal to each other ever since.

My movies have grossed more than 22 billion dollars worldwide, and in no small part, have the musicians and Air Studio been a contributing force in this. I have made it a point of bringing the work from mainly American film studios back to the musicians and the studio in London. I have persuaded all the composers that have come up through 'my ranks' - like John Powell (the "Bourne" trilogy, "How to Train your Dragon"), Harry Gregson-Williams ("Shrek", "Kingdom of Heaven"), Henry Jackman ("Kingsmen"), Ramin Djawadi ("Game of Thrones") and many more, to embrace London as a viable film-scoring capital.

Dear Mr. Tulloch,

I write in relation to the matter of the revised plans ref: 2015/2089/P & 2015/7079/P submitted for 11, Rosslyn Hill.

I would like to stress (for the 3rd time, at least) that if this development were to go ahead, in particular the excavation of proposed basement, Air would not be able to function as a working studio for a number of months, causing extreme harm to its business.

This is backed up by the acoustic opinion you have been given by experts.

Furthermore this would have a negative impact on my ability to carry out my work, causing significant harm to my business as well. In the last 6 months alone, here are the larger projects I have worked on at Air, for major production companies:

Uncharted 4 – Composer: Henry Jackman - Sony Computer Entertainment – video game

Captain America: Civil War – Composer: Henry Jackman - Marvel – film

Angry Birds – Composer: Heitor Pereira - Rovio – animated film

Miss Peregrine's School for Peculiar Children – (director: Tim Burton) - film

Lineage Eternal – Composer: Lorne Balfé - NCSoft - video game

Warcraft – Composer: Ramin Djawdi - Legendary Pictures - film

Spectral – Composer: Junkie XL - Legendary Pictures - film

This relates to Air alone, not the projects I worked on at Abbey Road. I would not have been able to work on these projects if Air was inoperable, as time was not available at Abbey Road. There is simply not the studio capacity in London to cope with the loss of Air, so these projects would not have been scored in the UK at all and would have gone to LA, Prague, Belgium etc. – losing work for many UK musicians and costing the Exchequer many thousands of pounds in tax revenues.

If this development is permitted and goes ahead, I will reluctantly be seeking legal recourse against all parties involved for loss of earnings.

Sincerely,

Gavin Greenaway

Also via email

Dear sirs

I am writing for the 3rd time re planning applications 2015/2089/P and 2015/7079/P

11 Rosslyn Hill

As before I most strongly oppose this latest application
as attached in your email below on the following grounds:

- 1) the harm and devastating effect this building work will cause to a whole industry of recording from both USA, Far Eastern and European clients to hundreds of British people, who totally rely on Air Studios for their livelihoods is immeasurable.
- 2) The close proximity of the studios and the noise pollution would effectively close the facility for months and even years and force the work to be taken out of this country for good.
- 3) As Britain faces severe isolation in so many other industries due to the recent referendum this would be yet another nail in the coffin for the British economy. The arts and culture of this country bring in billions at this present time. This building application severely harms and jeopardises the fragile position we face at this critical moment.
- 4) We must preserve jobs at all costs now. The staff at Air studios would certainly lose theirs as well as hundreds of musicians.

I strongly urge you to reject the applications above.

Yours sincerely

Professor Skaila KANGA
