

NOT TO SCALE

NOTES:
 1. Do not scale from these drawings
 2. All dimensions are in centimetres and are to be verified on site prior to commencement of works.
 3. All materials and workmanship in the proposed works are to comply with the recommendations and requirements of current British Standards, Codes of Practice, Building Regulations and IEE Regulations.
 4. All proprietary products to be used fully in accordance with manufacture's instructions.
 5. All existing timbers/ beams affected by the proposed changes are to be exposed for inspection and any remedial works found necessary to be undertaken by the builder before commencing any new works. This should be done in consultation with and agreement of the Building Control Officer.
 6. No work is to be undertaken which shall encroach outside the site boundary as indicated on the plan.
 7. All works to be carried out in complete accordance with the Health and Safety at Work Act.
