2015/7079/P	Rachel s Bolt	38 Hendon Lane London N31TT	27/06/2016 19:47:26	OBJ	Dear Mr Tulloch, Thank you for your recent letter informing me that in spite of a storm of protest, the basement development of 11,Rosslyn Hill is still being given consideration, under revised plans.

The thousands of musicians who have raised their concerns to you, are fully aware of the that fact that in order to function, a recording studio needs silence. Ground vibration from these works will mean there cannot be silence, therefore there cannot be any recordings.

My regular work at Air Studios contributes to a large percentage of my total income. During 2016 so far these included my participation in recordings with:

Paloma Faith

Max Richter.

Film scores at Air studios that I participated in this year included,

Beauty and the Beast

Juste la fin du monde

Nocturnals

Gifted

Pete's Dragon

The Space between us

Morgan

Allegiant

Captain America: Civil War,

Application No: **Consultees Name:** **Consultees Addr:** **Received:**

Comment: **Response:**

Miss Pereguine's home for peculiar children

BBC-A midsummer nights dream,

The Legend of Tarzan.

Scores for video games at Air Studios that I participated in this year included

PSVR Worlds

Lineage Eternals

Warcraft

Spectral

In addition to various different projects for Walt Disney.

As has already been explained to Camden Council, this work cannot simply be taken elsewhere, as the only other venue with these capabilities is Abbey Road Studio which has a recording schedule full to capacity already. If you give permission for these building works it will have a serious impact on my livelihood and as mentioned before in my letter of 22/09/2015 I will be forced into pursuing every legal channel to seek financial compensation from Camden Council.

Thank you,
