Subject: 2016/3403/T Objection

Gerry

Sorry to bother you with this objection to tree works - but my neighbours want to prune the beautiful Magnolia Tree (T1) that overhangs my garden. I have been deeply concerned for the long term health of this much loved tree. This is a second application as the owners previously applied (January 2016) via planning to remove 2 m from the tree - are they now applying to remove a further 2 m as this would be unacceptable. Please can you confirm as I would clearly like to get further advice on the damage this might do as you know Magnolia trees do not respond well to pruning.

Kind regards

Penny Davis
