I was a patient in the convalescence period,
1976 New Year for a few weeks.
I came from the Middlesex Hospital. David Wolfson
funded patients. I remember the covered walkway
to the geriatric patients' area. Unfortunately I was too
ill to walk the grounds much.
I should like to know if there are remnants of
Pulham's rockery and fernery.

It would be wonderful for devotees of Athlone House
to be able to view the house when it is finished
(before furnishing of course). Tickets could be
sold one or two days in aid of the
owner's nominated charity.

This is such a fantastic improvement on
the monstrosities that were proposed.

I feel Athlone House now has a future
and I approve of the new designs.

Congratulations

A brighter future for Athlone House, for many years
a hospital admired for its care of people and the grounds.

Hornsey Historical Society

Although this building & its grounds are not in Hornsey,
nevertheless the HHS fully supports the prolonged & intense
efforts by the Highgate Society to preserve a historic
building which is appropriate to its setting & to prevent
a desecration by greedy & insensitive developers of our
precious environmental heritage.

Thank you, Highgate Society & all our supporters.
WE SHALL OVERCOME!

Jennifer Fome-Roberts:

Well thought-through Scheme. I hope they will open the Gardens
to the public sometimes.

Thank you to the Highgate Society for your valiant work over many
years on this.

amusing pretensions! . K. Roberts .

Of course much better than before !!
But how do we know that there will not be further applications for new
build once this permission has been obtained ?!

If the reality by 2020 is comparable to these illustrations, it will be
a splendid vindication of the community's efforts against all the odds.

So pleased to see the house being cared for & restored so carefully - S. Cox

Delighted to see the plans for a wonderful
restoration . J. Mackay

Very informative and helpful. Thank you

Hopefully, a happy outcome! Andrew Sullivan

This is a great relief - not perfect but done
with care + thought. I'm looking forward
to meeting the new owner.

How happy to see a likeable design
and plan for the restoration of Allene
House. Thank you Jon Huggan CHAIR

Good to see that this project was
so sensitively thought out. Joy M.
