2016/3314/P	Tim Stockton	Flat 7 One Prince of Wales Road London	30/06/2016 10:41:51	COMMNT	Unless and until the HS2 Hybrid Bill receives Royal Assent permission to demolish the building should be refused. London Borough of Camden should obtain an unequivocal legal opinion of the legality of HS2 Limited's proposed demolition ahead of Royal Assent.
2016/3314/P	Primavera Boman	27 Oval Road Camden Town London NW1 7EA	30/06/2016 12:57:53	COMMNT	That old Temperance Hospital is most probably filled with ASBESTOS which is highly dangerous to health. It has to be demolished with utmost care. And as Sir Tim Lankester, former president of Oxford College said, "The HS2's scheduled demolition of the National Temperance Hospital this September is UNLAWFUL! And it was not prudent to enter into major demolition contract when opponents are still objecting to the project at the House of Lords select committee." Please do not grant this planning application until we know absolutely for sure that HS2 in Euston is in the cards 100%. Thank you, Primavera
2016/3314/P	Jo Hurford	Flat 71 30-40 Grafton Way WC1E 6DX	30/06/2016 14:00:17	COMNOT	I object to this application. I do not want the Temperance Hosp to be demolished. It is a beautiful building and should be preserved. If HS2 dose not go ahead the building would not need demolishing so I think it would be prudent to make the applicant wait until the outcome is decided before allowing such major disruption (due to noise and pollutants released during demolition) for nearby residents and people like myself who walk past the building several times per week.
