2016/2611/P	Michael and Irfana Wood	8 Bromwich Avenue	01/07/2016 17:51:05	OBJ	Our property in Bromwich Avenue backs onto the site so we will be amongst neighbours most affected in terms of loss of privacy and views. Sorry to object but we are shocked to see the size and scope of this development, particularly the planned top floor accommodation which in our view is out of proportion to the existing property and not in keeping with the surrounding roofscape. With an unobstructed view into our property any attic conversion at no.49 will impact us adversely but we would plead for a less overbearing solution, ideally comprising a single rear dormer to mirror that on the adjoining semi and on most other houses in this conservation area.
