2016/3395/P	Susan Green	23B Primrose Gardens	02/07/2016 14:04:05	OBJ	It would be helpful to have some photographs of examples of the type of extension and proposed roofing and doors. The main objection to this proposal is the considerable reduction in open land/garden space to less than a quarter. The plan shows there will be extensive concrete paving for two patios and a large brick-worked area leaving a tiny strip of garden. This runs counter to the prevailing advice from horticultural and environmental advisors who warn against this kind of hard landscaping that creates rainfall run-off, flooding, loss of wildlife, flora and noise (from the hard surfaces).
