Application Ref 2016/2958/P  
AHN Tessa Craig  
letter 20 June 2016.

Dear Sir,

I cannot agree to a retrospective application regarding "to retain works to loft conversion (including rear roof dormer and terrace and enlarged side elevation dormer), single storey rear extension and fenestration works including double access doors at upper ground rear elevation."

The contractors should have carried out works complying to plans initially granted.

I feel it is wrong to build and grant permission when carried out works do not comply.

Plus noise, nuisance plus blockage of light from my flat and loss of view.

Yours faithfully

Frank Baker

If work is not put right it sets precedent which I feel is wrong in this case.
