2016/1737/P	Rachel Summerfield	78 lawn rd London Nw3 2xb	04/07/2016 20:47:15	OBJ	<p>We have been informed that revised plans still include removal of blossom tree from back garden. This is a terrible shame and detracts from the beautiful, peaceful and green environment that this conservation area includes. As well as being a real asset from our house and garden, this tree can be seen from up to 80 dwellings along lawn road, haverstock hill and downside crescent.</p> <p>In addition to the aesthetics, we also have concerns as to how our terrace and house will be affected in terms of instability/subsidence, if this tree is removed as it is very close to our property.</p>
