2016/2803/P	Michael Pharey	48 Canfield Gardens London NW6 3EB	15/06/2016 10:24:34	COMMNT	<p>I wish to object in the strongest possible terms to this application, notification of which, disgracefully, I have only received in the last few days although the closing date is less than a week after receipt. How Essential Living's latest application to vary Condition 31 which, if approved would allow them to demolish the existing building on the site before detailed plans for the foundations and footings are put in place could possibly be described as a 'minor material amendment' is beyond belief. Camden's own last refusal acknowledged that such a demolition would "risk significant harm to the visual amenity".</p> <p>If allowed this will enable Essential Living to demolish a perfectly viable building and leave the much-loved green space devastated and unusable for months, if not years to come, to say nothing of allowing the increased pollution from the Swiss Cottage gyratory to infect the lives of those living nearby.</p> <p>It is time for Camden to make a stand and ensure that Essential Living are prevented from</p> <p>1</p>
