2016/2600/P	Lee & Perry Smith	11 Heath Villas NW3 !AW	07/07/2016 19:57:02	OBJ	<p>We have been the owners of 11 Heath Villas for 30 years. Many concerns raised earlier have never been addressed adequately.</p> <p>We remain concerned on the proposal to build a basement on this site. Given the complexity of the earlier applications and some of them being permitted development, it is not clear to us that the basement issues were properly dealt with in the earlier applications and appeals.</p> <p>We are worried that building a basement on this site will damage our property just behind and overlooking.</p> <p>The integrity of the high separating wall might be compromised. We request that the owners of the Garden House and/or Camden indemnify us if the wall or our property is damaged during construction.</p> <p>There remains the possibility of renewed subsidence in a location prone to do so. Again we request that the owners of the Garden House and/or Camden indemnify us from subsidence.</p> <p>The difficulties of construction access remain . The "boiler plate" construction exhibit does not indicate how the heavy equipment and spoils from excavation will be dealt with. When will this be dealt with in the process?</p>
