2016/2611/P	Brandon and Siri Prater	51 Swain's Lane N6 6QL	07/07/2016 23:12:37	OBJ	Our property is adjacent to number 49 and, with respect, we have concerns about the scale of the proposed extension work, in particular the first floor addition. The proposed first floor addition seeks to extend fully to our shared property line, which in our opinion, brings the first floor structure too close to our house and concerns us with respect to loss of light as well as privacy from an overlooking standpoint. We are not opposed to a partial extension at first floor level, but would request that the size of the proposed addition be scaled back sufficiently from the property line to leave appropriate space and light between the two houses.
