

### CATEGORY AND DEFINITION

Trees unsuitable for retention	
Category U	Those in such condition that they cannot realistically be retained as living trees in the current land use for longer than 10 years
Trees to be considered for retention	
Category A	Trees of high quality with an estimated remaining life expectancy of at least 40 years
Category B	Trees of moderate quality with an estimated remaining life expectancy of at least 20 years
Category C	Trees of low quality with an estimated remaining life expectancy of at least 10 years, or young trees with a stem diameter below 150mm

  

North (Indicative)

  

### LEGEND

	Existing Tree/Hedge BS 5837:2012 Category C
	Line of Root Protection Area (RPA) - calculated following guidelines set in BS 5837:2012
	Additional feature which doesn't meet BS 5837:2012 categorisation but is included for reference
	Existing Tree/Hedge to be removed to allow for development BS 5837:2012 Category C
	Additional feature which doesn't meet BS 5837:2012 categorisation but is included for reference to be removed to allow for development
	Area to be excavated to increase existing lightwell
	New retaining wall

  

### NOTE:

Hayden's Arboricultural Consultants were not provided with a Topographical Survey or Base Plan showing the positions of the trees/landscape features on this site, so their locations have been fixed using GPS. As such the position of the trees/landscape features should not be taken as exact but gives a fair distribution of their locations on site.
