2016/2859/P	Ms C. Ward	Flat 13 1 Little Russell St Bloomsbury WC1A 2HR	08/07/2016 17:17:08	OBJ	<p>As a resident of 9 years in this area, i recall the devastating impact that late night clubs & after hours venues have had on this fragile community. I recall the club that was previously in this building which had violent incidences. The residents got this shut. We also had other problems related to the late night economy which was a huge amount of drug dealing in Coptic st which became a serious noise & public health issue. I went and documented the activity in the area as i could never sleep from the noise & observed a inordinate amount of urine left on the streets and in residents doorways which was a direct byproduct of the clubs. We had people park in our streets which woke us up when going home. The mini cab drivers waiting for customers to leave made our streets more busy than in daytime. Since these venues have been shut area much more pleasant. I object strongly to this venue and do not wish this on the residents who are the ones who suffer constantly from 24/7 days open. My block houses many sick and vunerable residents. Im a member of the Bloomsbury Association</p>
