Subject: Application 2016/2827/P

Dear John,

We would hereby like to object to above mentioned planning application.

This new application does really not differ from the original application (2015/3684/P) which you have previously refused!

We would however add the following grounds for objection to the new application:

- The new application implies that there were previously 3 parking spaces outside April House Flat 1 and Flat 2 and that is simply not correct. Once again the applicants are trying to mislead the council.
- The new application does nothing to address the 'line of sight' issue. There will still be a lot of danger to people (and lots of children) walking/running down Maresfield Gardens.
- There will be a reduction in the number of parking bays outside 45 Maresfield Gardens.
- If granted a large car will several times a day drive over a council maintained manhole.
- The gates, wall, gatepost piers are of very poor design and does not fit into a conservation area.

We hope that Camden Council will now put an end to this long running farce.

We strongly object!

Yours sincerely,
Palle B. Pedersen, General Manager
