

**Petition to Camden Council from the Residents of Steele's village,  
Haverstock Hill**

92 Signatories

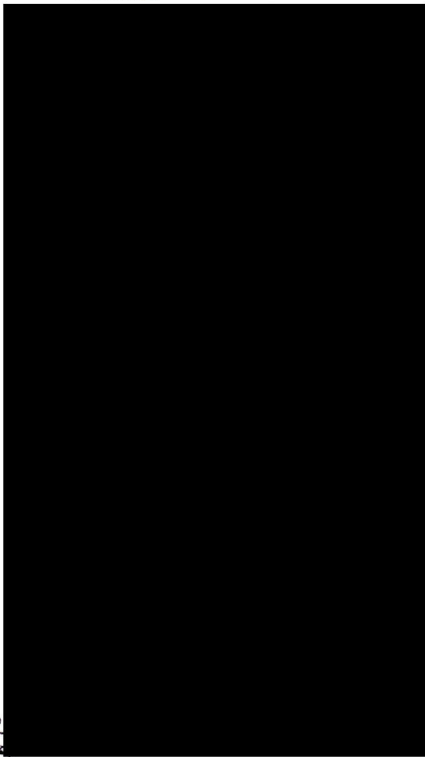

Application reference 2015/7275/T for the removal of the Sycamore (Acer) tree at number 94 Haverstock Hill ('The Hill' Bar) and application reference 2015/7273/T for the removal of the Elm tree at number 96 Haverstock Hill.

Applications have been submitted by "Subsidence Management Services" for the removal of these two trees. The stated purpose of the removal is to "stabilise" No. 96 Haverstock Hill - to avoid foundation stabilisation works (underpinning) of the building having to be undertaken by the employing insurance company.

The Elm is a local landmark and the only one left in North London. These two trees are a central part of the streetscape of Steele's Village – one of the amenities and reasons why it's such a pleasure living here. The desire of an insurance company to save money should never override the desires of the local community.

Please therefore refuse permission for the removal of these two trees.
