I think this proposed facility for the creative arts (Camden already having an historically lauded but threatened reputation for audio arts) is very welcome. It would also bring a welcome addition to the variety of shops/opportunities on Kentish Town High St (i.e. not another food outlet). I am also aware that the application is made by someone with much experience and respect within the audio field in both skill and mentoring, is a long standing member of the community, and is therefore well equipped to make this a desirable and successful enterprise. |
