No.81 Fitzjohns's Avenue G.I (105.200) On Site Existing G.L (105.710) On Site Proposed G.L (105.65) Top of Proposed Wall Level (106.32)

## Proposed Construction Sequence

All engineering to Symmetrys design and specification. See al so Symmetrys Temporary Retaining Works Drawing T01 (Section 3 - 3 ). Construction sequence would begin with sheet piling to prevent collapse of adjacent party wall structure during the demolition of the existing building and to all piling and excavation of the substructure to be carried out.
