Dear Mr Dols,

102 Camden Mews, London NW1 9AG.

Thank you for your email of 6th July 2016.

I confirm that I run a small practice of Consulting Structural Engineers (since 1991) and that our work load includes the design of a large number of basements (in excess of 100), which are to be constructed below existing housing. As part of this we prepare basement impact statements and successfully respond to queries by other independent checking engineers.

I am a Chartered Civil and Chartered Structural Engineer as can be seen on the bottom of this headed paper.

Please let us know if any additional information is required.

Yours sincerely,

Martin Cooper,
Cooper Associates.
