#### Informative(s):

- 1 Reasons for granting permission.

The proposal seeks to replace single glazed timber sash windows to the front and rear of the building with like for like replacements with double glazing. Works of this nature do not usually require planning permission, however, the property is covered by an Article 4 Direction which has removed the properties right to make changes to the principal elevation without planning permission. The replacement windows would have identical dimensions to match and are considered acceptable in terms of design and materials. They would sit comfortably within the host building and would preserve the character and appearance of the Belsize Conservation Area.

No amenity issues are relevant due to the nature of the application.

The Belsize Conservation Area Advisory Committee confirmed in writing that they have no objection to the proposal. The site's planning history was taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Policies. The proposed development also accords with The London Plan March 2016 consolidated and the National Planning Policy Framework.
