

**To Camden council**

**21/07/16**

**Project : 135 Finchley Road, Swiss cottage, London**

**Proposed outside decking area**

**When the applicant took control of the premises, the external space which is the subject of this application was an unkept area of wasteland with a lot of debris.**

**The decking is intended to provide a visual enhancement only, it is not intended for trading purposes so the question of customers and operating hours does not apply.**

**Should you require any more supportive information, please do not hesitate to contact me.**

**Regards**

Alan Law  
Architectural Technologist
