Before submitting my comments on the above, you should know I picked up the above notice on the steps down from Finchley Road to Dobson Close. In other words, it had been torn off wherever it was posted....

I am totally opposed to Camden being part of the North Westminster ERUV - an idea dreamed up by the ultra-orthodox community to enable them to shop on the Sabbath. I am Jewish too, but find this proposal outrageous and totally unacceptable. Their community existed for millennia, long before refrigeration, abiding by their interpretation of the religion. It smacks of cheating to concoct now this preposterous way of changing it.

In the name of freedom of speech and thought, I totally reject this submission and sincerely hope it isn't approved. May I request that you keep me informed on this matter.

Since sending you the undernoted, I've learnt that this minority's submission relates not to shopping on the Sabbath - but to pushing their children in prams or similar as no work is to be undertaken then!

My objections stand, however.

Beryl
