The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans CNT-GA-03-3002; CNT-GA-03-2003; CNT-GA-03-1001; CNT-GA-03-0302; CNT-GA-03-0203; CNT-GA-03-0101; CNT-GA-03-0032; CNT-GA-03-0023; CNT-GA-03-0011; CNT-GA-03-0005.

Reason:

For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission.

The proposed rear dormer is modest in size and sits comfortably within the roof slope. The dormer is set back from the ridge and sloped edge of the hipped roof by 500mm and therefore accords with Camden Planning Guidance (CPG1 Design). The materials shall match the main property and would not be out of character with the area, as such the proposal is considered acceptable in terms of design.

The proposed dormer shall not cause harm in terms of neighbouring amenity due to the location high within the roof slope and that the window shall face the rear of the property, therefore no loss of light or overlooking shall occur.

Two objections have been received with regards to the application which raised concerns relating to the increased overlooking, impact on the conservation area and the inaccuracies of the plans. These have been fully considered in the determination of this application. The planning history of the site and surrounding area has been taken into account when coming to this decision.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development

also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2016; and paragraphs 14, 17, and 56 -66 and 126-141 of the National Planning Policy Framework.

- 3 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
