2016/3638/P	Dom and Pete Maxted	76 Camden Mews	21/07/2016 16:22:55	OBJ	<p>Objection re planning application 2016/3638/P – 97 Camden Mews</p> <p>The resubmitted plans show that the proposed houses will be built significantly forward of the precedent set by the houses to left. They will also have multiple windows and balconies overlooking the street, directly opposite existing homes.</p> <p>This will result in a considerable reduction of privacy and light to our home. We are already very overlooked by the houses in North Villas to the rear of the mews, now we will be overlooked, at close proximity, at the front of our house as well. Our house is already very dark. This proposal will cut out yet more light.</p> <p>Camden Mews is extremely narrow. It is already overbuilt and as each new planning application is agreed, it is becoming an unpleasant and overcrowded place to live. Neighbour disputes are likely to increase if this proposal is allowed to go ahead.</p> <p>Regards                      Dom and Pete Maxted                      76 Camden Mews, NW1 9BX</p>
