2016/3730/T	Judith Farbey	14C Belsize Square London NW3 4HT	20/07/2016 15:41:37	OBJNOT	<p>I am very concerned that the black poplar will be cut down. It is a mature tree that adds to the character of my home which is directly opposite (ie we look out over it from our flat).</p> <p>The mature trees - which are essentially irreplaceable - are a significant feature of the double-backed gardens that join Belsize Square and Lancaster Grove. This black poplar contributes to the character of the area.</p> <p>I do not agree that the leaves are sparse. I have taken a photo of the tree as it now appears in July 2016, which shows that the leaves are green and full. I will try to submit a copy to Camden Planning.</p> <p>Please could Camden scrutinise the evidence in this application very carefully: felling this tree will affect the outlook from my flat and follows the felling of a large mature red-leaved tree in another garden in Lancaster Grove, so that there is a danger of loss of amenity in relation to the flats that overlook the gardens. Therefore, there should be persuasive evidence that the tree is not safe before I would agree to it being felled.</p> <p>Can it be a condition that the owner undertakes appropriate replanting?</p>
2016/3730/T	wendy bond	14a belsize square london nw3 4ht	19/07/2016 13:12:34	COMMNT	<p>I would like to know WHY one tree is to be felled and the other reduced, i also request to be informed how much of the sycamore is to be reduced by. this area is lovely because of the trees, we as residents do not want trees taken down, spoiling the area and removing much needed trees that add oxygen and cleaning to our air quality. a ruination of a beautiful tree lined area is not an option from people who want to extend their properties. i am not agreeing or approving this terrible application.</p>
