WORK PROPOSED

Mature tree showing signs of dieback throughout crown. To both reinvigorate and make safe:

Reduce and reshape crown by up to 25-30% all round to suitable new growing points. Clean out crown, remove deadwood, weak and suppressed branches, lift and balance crown

Medium mature tree. To contain spread, improve light and space all round:

Reduce crown all round by 1-2 m to suitable new growing points. Thin and clean out crown, remove deadwood, weak and suppressed branches. Lift canopy all round by 1-2m, balance crown.

To contain spread and improve light to and close of the front

Reduce and reshape crown by 25-30% all round to suitable new growing points.

Thin and clean out crown and remove
deadwood, weak and suppressed branches.
Lift and balance crown.

Please quote our reference number on all your correspondence.

Yours sincerely,

Edward Radziwillowicz.
