2016/3365/P	Mrs M Bland	14 A Frogna Lane London NW3 7DU	24/07/2016 20:58:18	OBJ	The raising of the parapet level will significantly decrease the amount of light for me as this change is directly to my left. If indeed the raising of the parapet then facilitates a balcony for 16 C, I would find this also an encroachment of my privacy as I would be directly overlooked. (Far more so than the current windows looking out from the house)
