Hello Tony

Sorry for the delay as I have been on holiday

Please find attached drawing PL001 and PL002

We are proposing to use a spandrel panel as shown on the drawings PL001 Photo D and PL002 Photo M & I

This will be an aluminium panel in-between the glass as shown on the attached drawings / photos, the panel will be the same colour as the window so it looks exactly like the photos attached.

Would it help if we came in with some samples to discuss further

Hope this helps

Regards

David
