Dear Tom,

Re: Greater London House – Daylight and Sunlight

Thank you very much for sending through the detailed drawings for Greater London House. You have asked me to consider whether the works you are performing will have any effect upon the daylight and sunlight amenity enjoyed by the neighbouring buildings. The answer is unquestionably no, as the works are restricted to infilling the central courtyard. The overall envelope of the building is not changing and therefore there will be no effect upon the neighbouring buildings.

I trust this provides you with sufficient comfort, however, please do not hesitate to contact me should you wish to discuss further.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Nick Lane", followed by a horizontal line.
