This application for in effect creating an extra storey on the roof of one block is plainly exactly the kind of development which should not be allowed. The height of these flats was an important element in the original scheme for good reasons relating to the effect on views from the Heath among other matters. It also seems that the new bedroom proposed has no adequate and safe exit in case of fire. It alters the roof line of the building and there may well be overlooking issues. The application should be refused
