2016/3161/P	Emma Gorman	4 Laxton Place Regent's Park Estate Camden London NW1 3PT	31/07/2016 21:19:00	OBJEMAIL	<p>I live at 4 Laxton Place and I would like to request that permission to insert windows at first floor level be denied on the western side of the Westminster Kingsway building. These windows will overlook my garden.</p> <p>We live in an exceptionally built up area. There are tall buildings on all sides but because no windows from the college look directly into my house or garden we have managed to create a small green oasis of calm. My son a is severely disabled young man and we are limited, because of his disabilities, in where we can go and what we can do. Our garden is a place where we can sit and feel safe and not be stared at. Please, please don't take this away from us. I have no objection to the insertion of windows on the other elevations.</p> <p>I would be happy to invite the planning team, or the architects to visit my garden and see why I object for themselves.</p> <p>I would have liked to have received notification by post.</p>
