Subject: Application for tree work to Lime tree at 13 Netherhall Gardens NW3 5RN

Good morning Barry.

I hope your well. I am not normally this busy with trees but here is another one.

Could I apply to do works to a Lime tree located in the rear garden of **13 NETHERHALL GARDENS, HAMPSTEAD, LONDON, NW3 5RN. (Any TPO?)**

I would like to apply to reduce by 30% and also pay special attention to the large branches that are overhanging into next neighbouring garden which is causing friction and complaints. The overall condition of the tree is very good but it has been left unattended for many years and would certainly benefit from some "thinning out".

I shall forward you some images in a separate e mail but as you will see from the photos it would be difficult to sketch as the garden is a mass of large trees.

Many thanks and kind regards.
