London
NC1 4AG

Dear Matthias

Application 2015/6563/A

Further to the ongoing correspondence relating to the above application, please find attached revised drawing 3923-101A and 200B.

We have agreed (your email dated 22nd April 2016) that, as the fascia signs displayed on the Coram and Marchmont Street elevations are non-illuminated, they benefit from deemed advertisement consent. Accordingly, they are formally withdrawn from the application.

The application for advertisement consent now, therefore, concerns:-

- an illuminated swing sign, mounted on a bracket on the eastern end of the Marchmont Street elevation; and
- two internally illuminated menu display units (1 each on the Marchmont and Coram Street elevations). The menu display units are like for like replacements for previously existing items.

I trust that you now have all the information necessary to determine the application for advertisement consent.

Yours sincerely

Nick Davey
