

**Historic  
Buildings**

London and Middlesex Archaeological Society - for ar  
Council for British Archae

---

**For the attention of Elaine Quigley**

This Committee acts on behalf of the Council for British Archaeology in respect of Listed buildings and Applications within the Greater London area. The Committee discussed the above case in depth at its meeting on Tuesday, 26 July 2016 and made the following comments:

- It was noted that (a) the listed façade was unaffected by the proposals and (b) that most of the interiors were subject to remodelling/renovation in the mid-1960s;
- The Committee would prefer secondary glazing to the rear windows rather than the proposed double glazing;
- Objections were raised to the excavation to increase storage in the original vaults with the subsequent loss of historic fabric.
