THE FIRST SCHEDULE
Construction Management Plan
Highway Measures

A Construction Management Plan outlines how construction work will be carried out and how this work will be serviced (e.g. delivery of materials, set down and collection of skips), with the objective of minimising traffic disruption and avoiding dangerous situations and minimising the impact on local amenity. A Construction Management Plan should cover both demolition and construction phases of development. Details of the Construction Management Plan will relate to the scale and kind and location of the development and they should assess the impact on transport and on local amenity including road user amenity. Should any one of these criteria be considered not to be relevant, then specific justification, as to why that particular criterion is not relevant, will need to be provided. The Construction Management Plan should demonstrate that the following has been considered and where necessary the impacts mitigated:

(Note the term 'vehicles' used here refers to all vehicles associated with the implementation of the development, e.g. demolition, site clearing, delivering of plant, material and construction, staff parking etc)

- a) A brief description of the site, surrounding area and development proposals for which the Construction Management Plan applies.
- b) Proposed start and end dates for each phase of construction.
- c) The proposed working hours within which vehicles will arrive and depart.
- d) The access arrangements for vehicles.
- e) Proposed routes for vehicles between the site and the Transport for London Road Network (TLRN). Consideration should also be given to weight restrictions, low bridges and cumulative affects of construction on the highway. A map of the TLRN can be downloaded from the following site:-

http://www.tfl.gov.uk/assets/downloads/TFL_Base_Map_Master.pdf
- f) Typical sizes of all vehicles and the approximate frequency and times of day when they will need access to the site, for each phase of construction.
- g) Swept path drawings for any tight manoeuvres on vehicle routes to the site.
- h) Details (including accurate scaled drawings) of any highway works necessary to enable construction to take place.

- i) Parking and loading arrangement of vehicles and delivery of materials and plant to the site.
- j) Details of proposed parking bays suspensions and temporary traffic management orders.
- k) Proposed overhang (if any) of the public highway (scaffolding, cranes etc.).
- l) Details of hoarding required or any other occupation of the public highway.
- m) Details of how pedestrian and cyclist safety will be maintained, including any proposed alternative routes (if necessary), and any Banksman arrangements.
- n) Details of how traffic associated with the Development will be managed in order to reduce congestion.
- o) Details of any other measures designed to reduce the impact of associated traffic (such as the use of construction material consolidation centres).
- p) Details of how any significant amounts of dirt or dust that may be spread onto the public highway will be cleaned or prevented.
- q) Details of consultation on a draft Construction Management Plan with local residents, business, local groups (e.g. residents/tenants and business associations) and Ward Councillors. Details should include who was consulted, how the consultation was conducted and the comments received in response to the consultation. In response to the comments received, the Construction Management Plan should then be amended where appropriate and where not appropriate a reason should be given why not. The revised Construction Management Plan should also include a list of all the comments received. You are advised to check your proposed approach to consultation with the Council before carrying it out.
- r) Details of any Construction Working Group that will be set up, addressing the concerns of surrounding residents, as well as contact details for the person responsible for community liaison on behalf of the developer, and how these contact details will be advertised to the community.
- s) Details of any schemes such as the "Considerate Contractors Scheme" that the project will be signed up to should form part of the consultation and be notified to the Council. Contractors will also be required to follow the "Guide for Contractors Working in Camden" also referred to as "Camden's Considerate Contractor's Manual"

t) Details of other construction sites in the local area and how your Construction Management Plan takes into consideration the cumulative effects of construction local to your site.

u) All contractors and sub-contractors operating large vehicles over 3.5 tonnes must meet all of the following conditions:-

- 1) Operators must be a member of TfL's Fleet Operator Recognition Scheme (www.tfl.gov.uk/fors) or similar at the Bronze level.
- 2) All drivers must have undertaken cycle awareness training such as the Safe Urban Driver module through FORS or similar.
- 3) All vehicles associated with the construction of the Development must:
 - i. Have Side Guards fitted, unless it can be demonstrated to the reasonable satisfaction of the Employer, that the Lorry will not perform the function, for which it was built, if Side Guards are fitted.
 - ii. Have a close proximity warning system fitted comprising of a front mounted, rear facing CCTV camera (or Fresnel Lens where this provides reliable alternative), a Close Proximity Sensor, an in-cab warning device (visual or audible) and an external warning device to make the road user in close proximity aware of the driver's planned manoeuvre.
 - iii. Have a Class VI Mirror
 - iv. Bear prominent signage on the rear of the vehicle to warn cyclists of the dangers of passing the vehicle on the inside.

v) Any other relevant information with regard to traffic and transport.

w) The Construction Management Plan should also include the following statement:-

"The agreed contents of the Construction Management Plan must be complied with unless otherwise agreed with the Council. The project manager shall work with the Council to review this Construction Management Plan if problems arise in relation to the construction of the Development. Any future revised plan must be approved by the Council and complied with thereafter."

It should be noted that any agreed Construction Management Plan does not prejudice further agreement that may be required for things such as road closures or hoarding licences

3 Reasons for granting permission. [Delegated]

The proposed development is in general accordance with the London Borough of Camden Local Development Framework Core Strategy, with particular regard to policies (officer to insert relevant policy number and title) and the London Borough of Camden Local Development Framework Development Policies, with particular regard to policies.... (officer to insert relevant policy number and title). For a more detailed understanding of the reasons for the granting of this planning permission, please refer to the officer report.

4 The Mayor of London introduced a Community Infrastructure Levy (CIL) to help pay for Crossrail on 1st April 2012. Any permission granted after this time which adds more than 100sqm of new floorspace or a new dwelling will need to pay this CIL. It will be collected by Camden on behalf of the Mayor of London. Camden will be sending out liability notices setting out how much CIL will need to be paid if an affected planning application is implemented and who will be liable.

The proposed charge in Camden will be £50 per sqm on all uses except affordable housing, education, healthcare, and development by charities for their charitable purposes. You will be expected to advise us when planning permissions are implemented. Please use the forms at the link below to advise who will be paying the CIL and when the development is to commence. You can also access forms to allow you to provide us with more information which can be taken into account in your CIL calculation and to apply for relief from CIL.

<http://www.planningportal.gov.uk/planning/applications/howtoapply/whattosubmit/cil>

We will then issue a CIL demand notice setting out what monies needs to be paid when and how to pay. Failure to notify Camden of the commencement of development will result in a surcharge of £2500 or 20% being added to the CIL payment. Other surcharges may also apply for failure to assume liability and late payment. Payments will also be subject to indexation in line with the construction costs index.

Please send CIL related documents or correspondence to CIL@Camden.gov.uk

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.

Yours faithfully
