Planning Application 27 King's Mews  
ref no: 2016/3843/P

Dear Rob Tulloch,

I object to this on the grounds of height and privacy. All the houses opposite this proposed development are two storey (that is 1-4 King's Mews). And no. 26 is two storey (with a <sup>long</sup> set back at third floor level) and at present no 28 is two storey. This proposal would be for a building of four storeys (ground floor plus three floors) which would cut out light for houses opposite & which would clearly overlook them.

It would also be out of character with the end of Mews.

Yours sincerely

Susan G. Steadman Jones
