Dear Sir or Madam,

I am writing as I want to oppose this planning application.  
It affects me directly as I live at Flat 1, 36 Elsworthy Road. When we bought this flat they told us that the views will never change as this was part of a conservation area. What I see from my window now is a beautiful garden with loads of green. I don't want to see an overcrowded squashed two storey house from my window.

This area is a green corridor into Primrose Hill and it should stay green, not packed with more houses.  
This planning application, if granted, will affect dramatically the state of this beautiful street.

I hope you revise all the comments and understand that anyone on this neighbourhood is in favour of this project.

Kind regards,

Gabriela Scardaccione
