Dear Alex,

Re: 192 Haverstock Hill redevelopment – Piling Design

I write regarding your submission, specifically having reviewed;

- Pile Design for Construction, version 1 (*WPP Consulting*, dated 18th March 2016)
- Piling Strategic Method Statement, revision 0 (*Train & Kemp*, dated 15th March 2016)
- Basement Plan, 13358 GA-01, revision P2 (*Train & Kemp*, dated Feb 2016)

I make the following observations;

- Temporary works (eg: propping and piling mat) are to be designed by others and monitoring of the wall piles has been recommended.

I confirm on behalf of LU, that I have no objection to this piling design, subject to the conditions given below;

1. Temporary works design(s) to be submitted for LU's review and acceptance for the i. temporary propping and ii. piling rig working platform.
2. Detailed contractor method statement(s) to be submitted for LU's review and acceptance for those activities with a potential to impact LU's infrastructure.
3. LU shall be provided with copies of the monitoring reports (from section 4.9), including interpretation of the raw data, produced at appropriate intervals.

Kind regards,

Nigel Kaye MEng
Infrastructure Protection Engineer
