Subject: 2016/2892/P - Erection of pairs of poles with clear wire between the poles at 13 locations across the Borough forming part of the North Westminster 'ERUV'.
Attachments: Camden eruv2016.pdf

Dear Seonaid Carr and Camden's planning team,

I write directly to you having not been able to access the comments page of your website for the application for an eruv.

As a member of the general public, not a community which seeks benefit from an eruv, I have only recently learned of this renewed application.

I strongly object – as indicated in the attached comments, which I hope you will take into consideration prior to concluding on the application.

With thanks and best regards,

James Hewitt
