2016/4044/P	Sabrina Skeete	Flat 4 Metro House 36 Arlington Road London NW1 7HU	11/08/2016 15:30:38	OBJ	The windows being enlarged overlook the Metro House building. This will doubtless involve the noise of jack-hammers, dust, paint, and other detritus falling on the patio or drifting through open windows as with the original building works. I am particularly affected as flats 4, 8 and 11 share a wall with the Carlow House building and the noise from the builders is particularly loud. Given the disruption these minor alterations seem unnecessary.
