2016/3286/P	Bloomsbury Conservation Area Advisory Committee - Hugh Cullum	61b Judd Street WC1H9QT	15/08/2016 11:12:19	OBJ	<p>The committee objects to this proposal on the grounds that it is over-development and detrimental to the character of the building and the conservation area. The proposed additional storey significantly changes the modest character of the building which stands as one of the few remaining examples of a particular period, the early nineteenth century of the development of Seven Dials area. It currently sits happily with its immediate neighbours both of which are of similar height and indeed it forms a pair with its neighbour to the left which is of a similar date and character. An additional storey would, in addition, certainly be visible as the new brickwork and pointing etc. cannot be made to be indistinguishable from the brickwork of the original two floors below.</p> <p>Hugh Cullum for Bloomsbury Conservation Area Advisory Committee (inc. Seven Dials).</p>
