3. Description of Proposed Works

Please describe the proposed works:

We would like to replace our front facing windows. Our property currently has old wood and aluminium plate windows and we would like to replace them with PVC double glazed windows. The current windows on the property are not the original sash windows and there is no actual box within the walls to be able to fit new sash windows. They are old and urgently need replacing as they are not very safe against intrusion and they are also not efficient at keeping in heat. The upstairs windows also leak during wet weather.

There are a total of 10 other properties on our street with PVC windows already fitted, including number 21 next door which is a Camden council house.

Has the work already been started without planning permission?

🔍 Yes 💿 No
