2016/4096/P	Emily	First Floor, 41 buckland crescent NW3 5DJ	17/08/2016 17:57:44 INT		<p>I am one of the freeholders of 41 Buckland and the owner of the first floor flat.</p> <p>I understand that the planning officer is not happy with the slanted roof, this design was created following the request of the owner of the raised ground floor flat for a design that minimises light pollution to the raised ground floor flat an above. With this in mind, as freeholders of the building we would not be minded to provide landlords consent (as required under the lease) to any design that has skylights which will give rise to light pollution affecting the other flats in the building. Should you wish to discuss the matter please contact me.</p>
